

## Welcome to The Love Archives!

Hi Mountaineer!

I'm thrilled to announce that I'm contributing to [The Love Archives](#), a romance anthology filled with bonus scenes, excerpts, extended epilogues, and alternate POVs. The best part? All proceeds go towards [Operation Olive Branch](#) to help families get out of Palestine.

In this special anthology, you'll find a contribution from yours truly. While I can't spill all the beans just yet, I can promise you an exclusive glimpse into a beloved character's world.

*The Love Archives* is a wonderful collection featuring 120 short stories from some of your favorite romance authors, all coming together for an important

cause.

See which authors are contributing, preorder your copy below, and join us in making a difference.

## Thank you for the love!

The Amethyst Kingdom has been receiving some incredible reviews! It means the world to me to see how much you're enjoying the final installment of the Five Crowns of Okriith series. Here are some highlights from a few of the reviews:

*"A wonderful conclusion to the series... It's action-packed and exciting with an epic quest, battles for power, looming war, and a reuniting of friends and enemies. Plus, that love story, and the friendships, messages, and representation – it's just chef's kiss!" - Julie, One Book More*

*"Couldn't put this book down! This series is one I wish I had as a kid with all its different kinds of relationships and representation it's so good to see it's so accurately represented."* - **Booktok Boys**

*"It was such a beautiful and satisfying ending to a truly amazing series that will ALWAYS hold a special place in my heart. These books are like a warm hug from my Mom, and helped me so much in my own personal life. It's not goodbye, it's 'Till Next time'."* - **Ash Sawatzky**

Your support and kind words mean everything to me. If you've read The Amethyst Kingdom, I'd love to hear your thoughts!

Thank you for being part of this incredible journey with me. Your enthusiasm and love for the Five Crowns of Okrith series have made this all possible.
